

WALT counting on and back in 10s and 100s

Write the number 10 more and 10 less than these numbers.

Example:

<i>136</i>	146	<i>156</i>
------------	------------	------------

	759	
--	------------	--

	230	
--	------------	--

	164	
--	------------	--

	999	
--	------------	--

	902	
--	------------	--

Write the number 100 more and 100 less than these numbers.

	761	
--	------------	--

	164	
--	------------	--

EXTRA!

Look at the middle numbers on the sheet. Write them down on the back of the page. Write down next to the number the hundreds number greater than it e.g. for 146 you would write 200. Then can you work out how much you would need to count onto the first number to reach the hundreds number?
